

# Find Your Size

A simple, true-to-size guide to help you choose the right Forever Hand™.

---

## How to use this guide

---

- 1 Print on US Letter at 100% scale.**  
In your print dialog uncheck "Fit to page" or "Scale to fit" so the outlines stay true-to-life.
- 2 Verify the calibration ruler.**  
After printing, the bar below should measure exactly 4 inches end-to-end. Reprint if it doesn't.
- 3 Place your child's hand on each outline.**  
Lay the hand flat with the wrist at the bottom of the page; relax fingers naturally.
- 4 Choose the size that fits most comfortably.**  
Fingertips and palm should sit just inside the outline with a small amount of room.

**Calibration ruler — this bar should measure exactly 4 inches:**

## In this guide

---

### **Small · Page 2**
